## **To The Organization Geneva Call**

While taking into consideration talks between us and Pascal Bongard with Mohamed Nur Ali (Maj Nur),

Taking into account the teachings of our religion which does not propagate mass killings,

While also taking into account the norms and ideals on which the Islamic courts Union Somalia stand for,

Out of respect for international humanitarian law, the ICU will not use any form of explosive devices that are harmful to humanity, in particular innocent civilians.

We further declare that we do not have any problem with holding further talks with Geneva Call and the Islamic Courts Union regarding the subject matter in future.

Thank you

**Signed by Secretary of Internal Security**
